

MitemOKey

Browser Guard for Kids
English Manual v4 - Product Version

This guide explains how to enable MitemOKey in Safari, open Parent Settings, configure YouTube, and uninstall the extension.

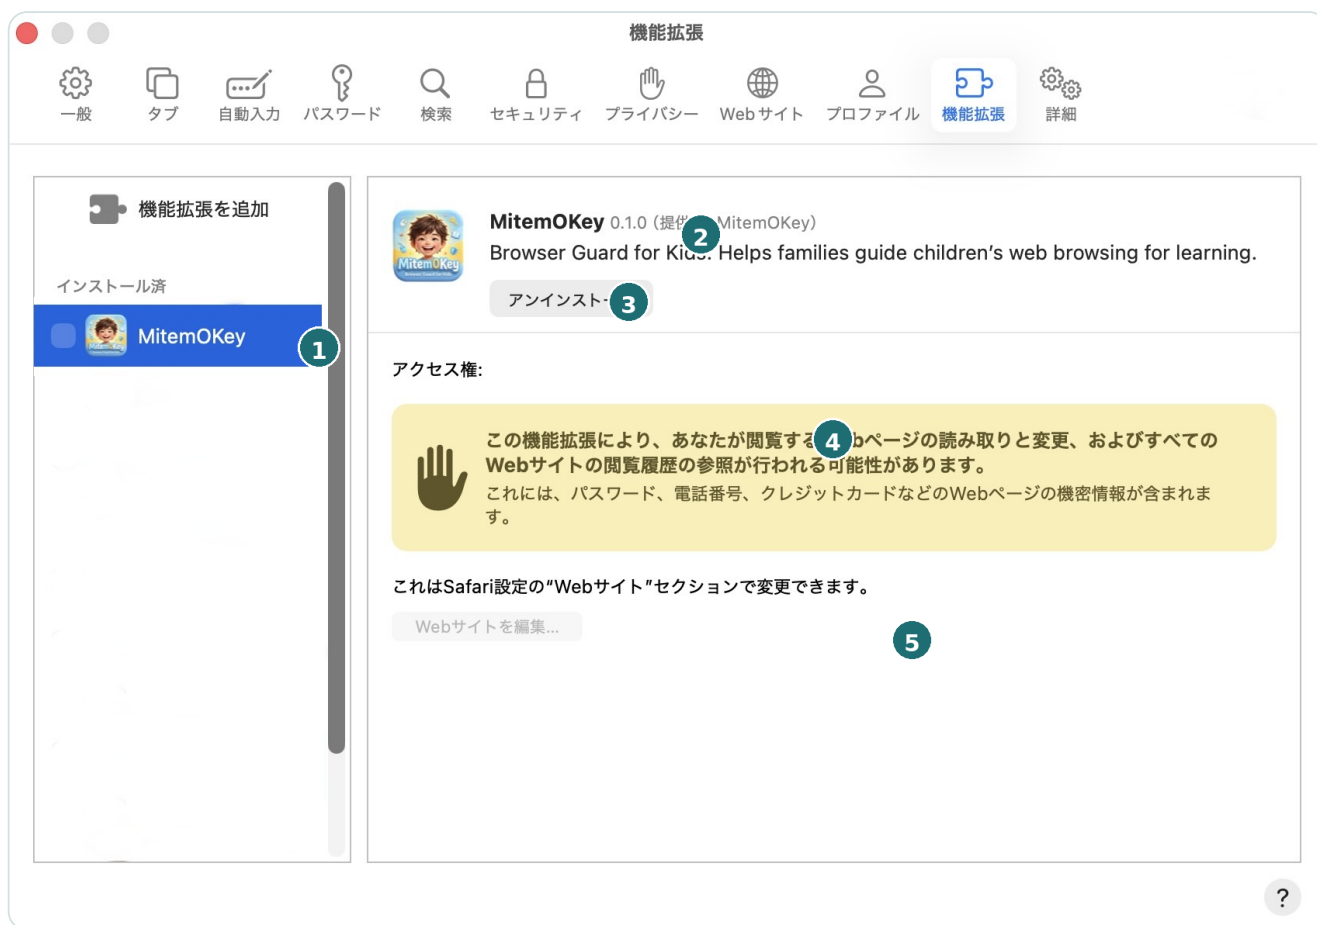

1. What MitemOKey does

MitemOKey is a Safari browser extension that helps families guide children's web browsing for learning.

- Study: allow learning-friendly pages.
- Ask: require the child to write a reason and request permission.
- Block: stop risky or distracting pages.

MitemOKey works in Safari. It does not fully control the YouTube app, other browsers, or devices where extensions can be disabled.

2. Enable in Safari

Number	Description
1	Select MitemOKey in the Extensions list and make sure it is enabled.
2	The MitemOKey icon and description are shown here.
3	Use this button only when uninstalling MitemOKey.
4	Safari explains that the extension may read and modify web pages.
5	Website permissions can be reviewed in Safari's Websites settings.

3. Main screens

Popup

Number	Description
1	Current mode, such as homework mode.
2	Open Parent Settings.

Request screen

Children can write why they need the page for learning and submit a request to the parent.

Number	Description
1	Require a request for the YouTube home page.
2	Block YouTube Shorts.
3	Hide comments.
4	Hide related and recommended videos.
5	Allowed video IDs. Enter one YouTube video ID per line.
6	Save or reset settings.

4. Recommended YouTube setup

Item	Recommended value
Mode	Homework mode
Request domains	youtube.com / www.youtube.com / m.youtube.com /youtu.be
Allowed domains	Do not add YouTube here, or all of YouTube may open freely.
YouTube settings	Request home page / Block Shorts / Hide comments / Hide related videos

5. How to enter a YouTube video ID

Video URL	Enter this value
https://www.youtube.com/watch?v=abc123XYZ	watch?v=abc123XYZ
https://youtu.be/abc123XYZ	abc123XYZ

Enter the video ID only. Do not paste the full URL. Use one video ID per line.

6. Uninstalling MitemOKey

1. Open Safari.
2. Go to Safari → Settings → Extensions.
3. Select MitemOKey from the list.
4. Click Uninstall.
5. Follow the on-screen instruction to remove the MitemOKey application.
6. Restart Safari and confirm that MitemOKey is no longer listed under Extensions.

7. Troubleshooting

Problem	What to check
Parent Settings will not open	Make sure the extension is enabled, website access is allowed, and it is opened from the toolbar icon.
YouTube opens freely	Make sure YouTube is not listed in Allowed Domains. Put it in Request Domains instead.
An approved video does not open	Check that you entered only the video ID, saved settings, and reloaded the page.
